Reasons to Join the NW Children's Foundation Board

Use Your Talents

NW Children's Foundation Board Members are active participants in NWCF's work, and the contributions of their personal skills, interests, creativity and passion are crucial to its success. Being of value is a good feeling!

Grow Your Skills

The NWCF Board helps set the organization's strategic direction. Learn and grow by engaging in planning, strategy discussions and decisions, managing projects, and participating in or heading various committees.

Work With Great People

Fun and engaged teamwork is a key component of NWCF Board service. The fun and connections come naturally when terrific people come together.

Learn About Philanthropy

From its inception, NWCF has intentionally served as a training ground for great philanthropy. Board Members are supported as they become more knowledgeable donors and grant makers. Grow while you give back to and help shape our community.

Be Inspired

Many Board Members will tell you that their favorite part of Board service is personal visits to agencies who have applied for grants from NWCF. Hearing stories of heartbreaking need and seeing programs in action to address it reinforces the life-changing impact of NWCF's work.

Make A Difference

NWCF Board Members are privileged to work on behalf of the young and vulnerable members of our society who desperately need our help. By partnering with our donors, grantee agencies and other funders, we are making smart investments now that will change the future for our entire community.

Here's an overview of what's involved in NW Children's Foundation Board membership:

Active Participation in Governance and Grantmaking, including:

- Monthly board meetings** – most are Monday evenings, August through June; some meetings are replaced by a retreat or party.
- Board retreat** – on one fall Saturday.
- Site visits and grant assessment** – grantmaking participation includes application reviews, site visits, and a subcommittee meeting. Board Members participate in the fall or spring grant cycle, or both.
- Committee work** – in addition to the grant review work, Board Members are encouraged to become involved in at least one other committee.
- Communications** – reading and making timely responses to NWCF-related emails.

Financial Leadership:

- Make a personal donation** to NWCF's Annual Fund and support its fundraising events. (We appreciate individual capacities to give vary, and expect every Board Member's annual gift to be a "stretch gift" within the context of his/her own finances. These contributions indicate a significant personal commitment to the mission and values of NWCF, and give power to Board Members' ability to ask others to give as well. The suggested minimum Annual Fund gift for Board Members is \$1,250 this year.)
- Designate** their annual fund gifts to be available for NWCF's operating expenses.

Fundraising Support:

- Support the Annual Fund Campaign by **soliciting friends and colleagues** for donations.
- Support the Annual Gala & Auction by **procuring items, attending the event, filling a table and participating in Fund-A-Need**, to the best of their ability.
- Support the Golf Classic and other events benefiting NW Children's Foundation as appropriate.

Mission and Engagement:

- Support the mission of NW Children's Foundation and work to **stay informed** about its history, goals, challenges and current operations.
- Actively engage in NWCF's Forum and other outreach efforts to **expand awareness** of NW Children's Foundation and its mission among friends, colleagues and the general public.

NW Children's Foundation works to do the following on behalf of all Board Members:

- Make judicious and **respectful use of their time**.
- Provide a **thorough orientation to NWCF, with ongoing training and education to assist them in becoming effective Board members and smart philanthropists**.
- **Respond** to their ideas, questions and concerns about their commitments (above).
- **Provide** directors and officers liability **insurance** with a liability limit of \$1,000,000.
